

John Michael Nave

Computer Engineer

CAREER OBJECTIVE

Computer Engineering student at CIT-U specializing in full-stack mobile & web development and project management. Seeking a challenging OJT internship to apply my project management and expertise in a professional environment.

TECHNICAL PROJECTS

Tuklascope (AI-Powered Discovery Lens) **2025**
Project Manager | Frontend Developer

- Integrated AI for multimodal vision, enabling real-time object recognition and educational content generation.
- Managed the end-to-end development lifecycle for a high-pressure Hackathon environment, handling both technical roadmap and UI/UX design

GesturiX (Sign Language Recognition) **2025**
Lead Developer | Frontend Designer

- Integrated a React Native frontend with a PyTorch-based AI recognition model for real-time gesture processing.
- Designed a user-centric interface focused on accessibility and low-latency feedback.

AWARDS & ACHIEVEMENTS

Consistent College Dean's Lister **2023 - 2026**

IBPAP: Can You HackIT Hackathon **2025**
(Shortlisted Top 28)

C++ Competitive Programming – **2026**
CPE Challenge Regionals (2nd Placer)

MCIA CEB-i Hacks Hackathon (Top 10 Finalist) **2026**

CIT-U College Scholar A.Y. 2025-2026 **2026**
2nd Semester

AFFILIATIONS & VOLUNTEER EXPERIENCE

RoboQuest 2024 Facilitator **2024**

RoboQuest 2025 Facilitator **2025**

Pilipinas Robosports Tournament – **2026**
RSC1 VisMin League Facilitator

EDUCATION

Cebu Institute of Technology – University

College
Bachelor of Science in
Computer Engineering
2023 – present

Cebu Institute of Technology – University

Primary & Secondary
2009 – 2023

TECHNICAL SKILLS

Programming Languages:

C, C++, C#, Python, Dart,
JavaScript, TypeScript

Mobile & Web:

Flutter, React Native, Next.js,
React, Tailwind CSS

Backend & Database:

FastAPI, Node.js, Firebase,
MySQL, PostgreSQL, Neo4j

AI & Data Science:

TensorFlow, PyTorch, NumPy

Hardware & IoT:

Arduino, ESP32, Microcontrollers

Developer Tools:

Git, GitHub, VS Code, Figma,
Cisco Packet Tracer
